

November 8, 2017

Dear Parents, Community Members, Staff and Students,

I would like to thank you for your feedback regarding the future of Cadillac Area Public Schools. Cadillac voters defeated the school bond proposal that would be used to update our aging buildings.

As the District moves forward to develop plans to address aging facilities and failing infrastructure, we will continue to provide a safe and healthy learning environment for our children. As we put valuable resources to work in your school district, we will continue to conduct our business in an open and transparent manner.

Our commitment to safety, academic excellence and flexibility for the future has not changed. Simply stated, our facility challenges are not going away. We will continue to maintain our aging buildings as well as possible with the resources allocated by the community and state. Please know that our priorities for building improvements will be to address the health and life/safety needs first.

Again, we deeply appreciate the hundreds of people who participated in the bond visioning process, community forums, steering committee and small group meetings. Thank you to the Cadillac for Kids campaign committee and volunteers, who spent countless hours and resources over the past several months and weeks to share the message of the bond with the community and educate voters. Lastly, thank you to all Cadillac voters who supported this proposal; Cadillac is a wonderful community and our people continue to be our greatest strength.

Sincerely,

Mrs. Jennifer Brown
Superintendent
Cadillac Area Public Schools
